FEATURES AT A GLANCE

- **Low Profile Design** – Measuring less than 28” tall, the TBS offers big performance in tight locations.
- **G3 Digital Control Module** – Provides precise control for gourmet fine tuning with pulse-brewing, delay, and all critical brewing functions.
- **G3 Enhanced Tea Flavor & Clarity** – With digital accuracy, two separate precision valves provide unsurpassed control over concentrate brewing and dilution cycles.
- **“Fast Brew” Option** – Program selectable. Shortens brew time by allowing concentrate and dilution cycles to run at the same time.
- **Intuitive Scroll-Through Precision Programming** – Large, brightly lighted display communicates functions at a glance. Easily adjust time, volume, temperature, brew functions and more.
- **On-Board Self Diagnostics** – G3 continually senses proper brewing operation. A service phone number and error code will be displayed in the rare event technical assistance is required... reducing downtime.
- **Cold Water Brew Lock-Out** – Prevents brewing when water temperature is below set level.

The Curtis G3 Tea Brewing System – Incredible tea flavor, simple operation, reduced maintenance.

At the center of the Curtis G3 Tea Brewing Systems is its unique Universal Control Module. The G3’s oversized LCD display and simple interface makes “scroll-through” programming incredibly easy. Of course, there’s no need to adjust the system, as Curtis’ pre-programmed factory settings deliver ideal results right out of the carton. Simply add bulk leaves or flow-thru filter packs and press the brew button for gallons of flavorful iced tea in just minutes.

Curtis G3 Systems include a host of new features designed to optimize tea quality including... digital temperature, brew-by-volume control, PM alerts, cold water brew lock-out, and much more. The result is perfect tea flavor and clarity, which keeps customers – and profits – returning.

Note: Standard TCN Dispenser does not fit under the TBS Tea Brewer
